

**Evans City/Seven Fields Regional Police Department  
Use of Defibrillators**

**Overview**

Every year, up to 450,000 Americans suffer from sudden cardiac arrest (SCA). Approximately one person dies every two minutes from SCA. The sad thing about this is that while sudden cardiac arrest cannot be prevented, with early treatment sudden cardiac death can be! The treatment can be as easy as using an automated external defibrillator (AED) to deliver electric shocks to the heart to stop ventricular fibrillation (when the heart begins beating erratically).

**Benefits**

Police and law enforcement officials are often the first to arrive on the scene of a sudden cardiac arrest. By carrying automated external defibrillators in their vehicles, police officers can increase the survival rate of SCA victims and save more lives each year. Automated external defibrillation must be started within minutes of the onset of the SCA because every minute that passes increases the likelihood of brain damage or death. If the first emergency personnel on scene are equipped with an AED, precious time is saved and the chances of survival are increased.

**TOWN PARK CLOSURE**

Town Park is closed to allow for installation of rubberized fall safety surface. The Public Works Department worked to prepare the area for the installation. Jeffrey Associates estimates 3 weeks to complete the actual installation. **Jeffrey Associates anticipate starting mid April, weather permitting.** Efforts will be made to complete the project as quickly as possible and we ask for your patience through the process.

# IMAGINE HAVING BRAIN SURGERY WITHOUT AN INCISION

Dr. Michael Horowitz specializes in treating many brain abnormalities, such as aneurysms. An aneurysm is a swollen spot on a blood vessel that can burst and become life-threatening. While some aneurysms must be treated with open brain surgery, others can be treated with a less-invasive coiling procedure. The critical part is knowing which technique to use and then performing it—flawlessly.

No need to imagine it.

## Seven Fields Emergency Management Coordinator Report

As we start to ramp up for summer and storm season, Seven Fields will be utilizing the Code Red Reverse 911 system in the following manor: Severe Thunderstorm Warnings  
Tornado Watches  
Tornado Warnings

Every attempt will be made to put out a message that is in sync with what the National Weather Service is alerting. Please keep in mind that a warning indicates that severe weather/tornado is imminent and you should seek shelter. Watches indicate that conditions are favorable.

In both cases, your family should have a plan to deal with severe weather and know what to do if you should be in the path of severe weather.

Here are some helpful tips:

1. Know your home. Know what area of your home you can go to and be as safe as possible. Usually this is in a basement or lower floor and as interior as you can get. Under a stairwell is a good example because of the extra reinforcements used. Try to place as many walls as possible between you and the exterior.
2. Have a meeting place. If this area (Seven Fields/Mars/Adams/Cranberry) should be hit by severe weather, make sure everyone knows where to meet. In some cases, cell towers can become damaged or loss of power for an extended time could interrupt normal communications.
3. If you need to move to a safe place in your home, turn your TV or radio up to a volume that you can hear from your safe place and tune it to the local news.
4. Make sure you have a flashlight in the area of your safe place. You don't want to run around at the last minute or in the dark to find one.
5. Please do not use candles. When there is damage to a home or surrounding property, there is always a risk of gas leaks.

For more information please visit: <http://www.weather.gov/safety>

## THANKS TO THE SEVEN FIELDS PUBLIC WORKS DEPARTMENT

Thank you to the Seven Fields Public Works Department for their tireless efforts and diligence during this past winter season. Together they did a commendable job keeping the roads and sidewalks clear of snow and ice. In addition, the installation and maintenance of the ice rink by the Public Works Department was much appreciated. The lighting at the rink allowed many families to enjoy the use of the ice rink into the early evening darkness.

**A sincere thank you to Bret, Rich, Tom and Kirk!**
