

BOROUGH OF SEVEN FIELDS NEWSLETTER

MAY 2016 PRINTED BY MINUTEMAN PRESS, CRANBERRY TOWNSHIP

COMMUNITY GARAGE SALE

Friday and Saturday

June 10 & 11, 2016

9am—2pm

This is a great time to get rid of unwanted items and make some extra cash. The Borough will advertise in the local papers and post signs to show motorists where to go. The Borough has also made arrangements to have the **Paralyzed Veterans** come and pick-up any items you do not sell. They will be around on **Monday, June 13th**. Please note, they will not accept the following: encyclopedias, sleeper sofas, large china cupboards, entertainment centers, large wooden or metal desks, refrigerators, newspaper or auto parts. Questions regarding items to be picked up can be directed to the Paralyzed Vets at 412-469-9665. **Residents are reminded to place a sign on items to be picked up by the Paralyzed Vets and a note to request a receipt if one is desired.** All items collected by the Vets are sold with the profits benefiting paralyzed veterans in the area.

Attention Dog Owners—Walkers

Residents are reminded that Ordinance #40 mandates that pet owners must pick up their dog feces when walking their dogs through the community.

Pets are NOT permitted in the Town Park—this includes the entire park—playground, pool, fields, etc.

Not only is it a violation against Ordinance #40, it is also a safety hazard for children playing in the playground area. Individuals are encouraged to report offenders.

Please call 911 to report violations.

IMPORTANT DATES

Monday, May 2nd:

* Planning Commission Meeting at 6:00pm in Council Chambers (Tentative)

Monday, May 9th:

* Council Meeting at 6:30pm in Council Chambers

Monday, May 16th:

* Evans City/Seven Fields Regional Police Commission Meeting at 5:15pm in Seven Fields

Monday, May 23rd:

* Evans City/Seven Fields Regional Police Commission Meeting at 5:15pm in Seven Fields
* Council Meeting at 6:30pm in Council Chambers (Tentative)

Monday, May 30th:

* Borough Closed—Memorial Day

Mark Your Calendars!

The 2016 Community Garage Sale

has been scheduled for

June 10 & 11, 2016

9am-2pm each day

Bulk Trash Pick-Ups

have been scheduled for

Friday, June 17, 2016

Friday, October 14, 2016

Any questions regarding what is allowable to set out for collection, please contact Customer Service at Vogel Disposal at 724-625-1511 or visit them online at www.vogeldisposal.com

COUNCIL NEWS

Council met on Monday, April 11, 2016 and approved the following:

- Dante Zehmisch's Eagle Scout Project to clean up walking trails in Seven Fields
- Resolution 2016-17 adopting the 2015 Butler County Hazard Mitigation Plan
- Resolution 2016-18 identifying records and equipment eligible for destruction
- Ordinance #88 adopting Seven Fields Water Drought Emergency Plan
- Seven Fields Public Works hiring of Joseph Jurysta at \$16.00 per hour
- Hiring of 7 lifeguards for 2016 Town Park Pool
- Seal Master estimate to reseal Seven Fields Walking Trails
- 2016-01 Seven Fields Road Resurfacing Change Order
- Legal Ad, Ordinance #46, (Seven Fields On-Street Parking)

*The next Council Meeting is scheduled for Monday, May 9, 2016.
All meetings are open to the public and residents are encouraged to attend.
Meeting Minutes and additional information can be found online at www.sevenfields.org*

EVANS CITY/SEVEN FIELDS REGIONAL POLICE DEPARTMENT

The March report provided to Council on Monday, April 11, 2016 showed 183 incidents with 127 in Seven Fields.

Residents are to call 911 for ALL police matters.

Town Park Pool Opening Day

Saturday, May 28, 2016

Noon to 8:00pm (weather permitting)

The pool will be available for open swim from 11am—8pm, Monday through Friday and from noon-8pm on Saturdays and Sundays. The pool will be open through Labor Day, Monday, September 5, 2016.

There will be limited hours of operation on weekdays from 4pm-8pm beginning Tuesday May 31 through Friday June 3 and at the end of the season beginning Monday, August 29 through Friday, September 2, 2016.

Membership Type	Regular	July 1st Discount	August 1st Discount
Resident:			
Individual	\$75.00	\$51.00	\$26.00
Family of 2	\$130.00	\$87.00	\$45.00
Family of 3	\$160.00	\$110.00	\$55.00
Family of 4	\$210.00	\$140.00	\$70.00
Family of 5+	\$240.00	\$165.00	\$85.00
Senior - Individual	\$60.00	\$40.00	\$20.00
Senior - Family of 2	\$110.00	\$75.00	\$35.00
Nanny	\$70.00	\$45.00	\$20.00
Non-Resident:			
Individual	\$100.00	\$67.00	\$34.00
Family of 2	\$170.00	\$115.00	\$58.00
Family of 3	\$185.00	\$125.00	\$63.00
Family of 4	\$275.00	\$185.00	\$95.00
Family of 5+	\$320.00	\$215.00	\$110.00
Senior - Individual	\$85.00	\$57.00	\$29.00
Senior - Family of 2	\$160.00	\$110.00	\$55.00
Nanny	\$90.00	\$60.00	\$30.00

Membership to the Seven Fields Town Park Pool is open to Borough residents and non-residents.

For membership pass purposes, a FAMILY is defined as parent(s) and any unmarried children ages 22 and under who are residing in the same household. Children who are 22 and over living at home and any other relative or individuals in the household may be subject to proof of residency.

The Nanny Pass will only be issued to bona fide babysitters and are only permitted pool access when accompanied by the children for whom they have registered with the Borough that they baby sit.

Memberships can be purchased at the pool or at the Borough Office, 2200 Garden Drive, Suite 100.

For additional information please contact the Borough Office at 724-776-3090 or visit the web at www.sevenfields.org.

Finally, The Life Insurance Protection You May Need And The Lower-Risk Growth Potential You Want.

**Indexed universal life. Life insurance protection you may need.
Competitive cash value accumulation you want.**

Want permanent life insurance protection that may accumulate cash value, all while allowing you to access that cash value¹ while the insurance is in force? Well, now you can have it! Indexed universal life insurance (IUL) can help balance your needs for life insurance and competitive cash value accumulation. IUL's index-linked feature provides more potential for cash value growth than traditional universal life, and the guaranteed floor means less risk than variable universal life. Which means you can spend more time enjoying life's special moments, and less time worrying about how to pay for them.

Call me today for the lower-risk financial growth you want!

1st Annual Seven Fields Beer & Wine Fest
SATURDAY, JUNE 11, 2016 at Town Park
LET US KNOW IF YOU ARE PLANNING TO ATTEND!

Session #1 (will be held from 1-4pm)

OR

Session #2 (will be held from 5-8pm)

To assist with planning and coordination, let us know how many in your group and which session you plan to attend! Complete the registration survey online at www.sevenfields.org, contact the Borough at 724-776-3090 or via email at newsletter@sevenfields.org

Tickets will be available at the Borough Office for \$30 per person, per session. We are working to ensure this is an exciting community activity for everyone and thank you for your cooperation.

NOTICE TO ALL WATER CUSTOMERS

The Pennsylvania Department of Environmental Protection (PA DEP) requires that West View Water notify their customers 90 days before the disinfection process is changed to Chloramines. On Tuesday 3-1-2016 Swift-Reach will once again notify the Authority customers that Chloramines will be added to their water the first week of June 2016. This application is seasonal and will run from June 2016 thru November 2016. We will not be adding ammonia until the first week of June. I will inform everyone with an exact time 2 weeks before the ammonia is injected. The Authority website will be updated with this notification as in previous years. Any questions can be directed to: J. Scott McNicol—smcnicol@westviewwater.org

Help Wanted

Lifeguards for 2016

If you're looking for a summer job, you're a strong swimmer and enjoy working with people, then lifeguarding at the Town Park Pool may be the job for you!

Several lifeguard certification classes are scheduled to begin to provide potential lifeguards the training and skills they need to be lifeguards, including a Red Cross Lifeguard Certification, CPR for the Professional Rescuer Certificate and First Aid Certificate.

For class information contact the American Red Cross at www.redcross.org.

Anyone interested in a lifeguard position at the Town Park Pool is asked to complete an employment application, available at the Borough Office or online at www.sevenfields.org.

Please send resume and letter of interest to:

Thomas B. Smith, Borough Manager

2200 Garden Drive, Suite 100

Seven Fields, PA 16046

boroughmanager@sevenfields.org

The Borough of Seven Fields is an equal opportunity employer.

Help Wanted

Pool Manager and Assistant Pool Manager for 2016

Although it is cold outside—think warm thoughts and the opening of the pool! If you have been looking for a seasonal job in your own backyard, you've come to the right place!

The Borough of Seven Fields is seeking a pool manager and assistant pool manager for the 2016 season.

The successful candidates should have prior management experience, i.e., cash management, supervised staff, etc. The positions are both temporary full-time positions with no fringe benefits. These positions will work opposite hours/shifts.

Please send resume and letter of interest to:

Thomas B. Smith, Borough Manager

2200 Garden Drive, Suite 100

Seven Fields, PA 16046

boroughmanager@sevenfields.org

The Borough of Seven Fields is an equal opportunity employer.

2015 Water Report for Seven Fields Borough Water Department

PWSID #5100135

The Borough purchases water from West View Water Authority. West View's source is surface water obtained from an intake structure in the Ohio River. The Borough re-distributes the water starting at the Franklin Road water pit, which then proceeds South across Route 228 East and West along Mars-Crider Road into a large loop that encompasses Northridge Manor and Northridge Estates. The Borough also has a secondary pit located on Southridge Drive which serves as a backup source. Its water source is from West View's supply also.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling EPA's Safe Drinking Water Hotline.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immune-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline.

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are byproducts of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff and septic systems.
- Radioactive contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration regulations establish limits for contaminants in bottled water which must provide the same protection for public health.

Please contact Bret Cole, Public Works Dept., Borough of Seven Fields, at 724-776-3090 for additional information or questions.

West View Water Authority (PWS ID NO. PA5020043)

2015 WATER ANALYSIS

KEY TO TABLE

Maximum Contaminant Level (MCL)

The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment.

Maximum Contaminant Level Goal (MCLG)

The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLG's allow for a margin of safety

N/A - Not Applicable

NTU - Nephelometric Turbidity Units

pCi/L - picocuries per liter (a measure of radioactivity) **ppb**

- parts per billion, or micrograms per liter ($\mu\text{g/l}$) **ppm** -

parts per million, or milligrams per liter (mg/l)

AL = Action Level - the concentration of a contaminate, which if exceeded, triggers treatment or other requirements which a water system must follow.

TT = Treatment Technique - a required process intended to reduce the level of a contaminant in drinking water.

MRDL - Maximum Residual Disinfectant Level

The highest level of disinfectant allowed in drinking water.

MRDLG - Maximum Residual Disinfectant Level Goal

The level of a drinking water disinfectant below which there is no known or expected risk to health.

MIN RDL: minimum level of residual disinfectant required at the entry point to the distribution system.

Inorganic Substances - Of mineral origin

Turbidity - A measure of water clarity.

Contaminant	Date Tested	Unit	MCL	MCLG	Detected Level/Range	Major Sources	Violation
Inorganic							
Barium	1/13/15	ppm	2	2	0.03	Discharge from Drilling Waste; Discharge from Metal Refineries; Erosion from Natural Deposits	NO
Fluoride	1/13/15	ppm	2	2	0.6	Dental Health, Discharge form Fertilizer and aluminum factories	NO
Nitrate	7/23/15	ppm	10	10	0.6	Runoff from fertilizer use; leaching from septic tanks, sewage; Erosion of natural deposits	NO
Nitrite	7/23/15	ppm	1	1	<0.01	Same as above	NO
Nickle	1/13/15	ppm	100	100	1.2	Manufacturing by product runoff from fertilizer	NO

West View Water Authority (PWS ID NO. PA5020043)

Contaminant	Date Tested	Unit	MCL	MCLG	Highest Detect	Lowest %	Date	Major Sources	Violation
Turbidity	2015	NTU	TT*	0	0.090	100%	4/15	Soil Runoff	No

Contaminant	Date Tested	Unit	% Removal Required	% Removal Achieved	# of Quarters out of Compliance	Violation
Total Organic Carbon	2015	% Removed	35%	38-56%	0	No

*Although the % removal is less than 35%, WVWA meets the alternative.

Volatile Organic Contaminants 2015	Violation	Quarterly	Levels	Range	MCL	MCLG
Total Trihalo Methanes (by product of drinking water)	No		PPB	LRAA-Location Run Annual Average	80	N/A
701 Distribution	No	Otrs 4	PPB	22-58	80	N/A
702 Distributiion	No	Qtrs 4	PPB	22-58	80	N/A
703 Entry Point	No	Otrs 4	PPB	24-57	80	N/A
Haloacetics All Sites 701-702-703	No	All Qtr's Avg. 4.37	PPB	6-44	60	N/A

Reporting for TTHM's has been changed by the DEP and EPA. All sites going forward will now be site specific and listed as such.

Microbiological Contaminant	Violation Y/N	Date Tested	# positive samples per month	Units	Range	MCLG	MCL	Source
Fecal Coliform/ E Coli	N	Twice a month	0	samples	N/A	0	0	Human & animal fecal waste
Total Coliform	N	Twice a month	0	samples	N/A	0	> 5% monthly samples are +	Naturally present in the environment

*In 2016 testing increases to 3x per month for coliforms.

Inorganics	Violation Y/N	Date Tested	Level Detected	Units	# of sites above AL	Action Level (AL)	MCLG	90th % Value	Major Sources
Lead	N	8/13/13	0	ppm	0 of 10	15	0	0 of 10	Corrosion of household plumbing systems; erosion of natural deposits
Copper	N	8/13/13	.06 to .66	ppm	0 of 10	1.3	1.3	0 of 10	Corrosion of household plumbing systems; erosion of natural deposits

*Next Test 2016-September

Disinfectants	Date Tested	Unit	MinRDL	Lowest Detect	Range	Major Sources	Violation	
Chlorine (Entry Point)	2015	ppm	0.2	0.95	0.95 to 2.18	Water additive used to control microbes	NO

Disinfectants	Date Tested	Unit	MRDL	MRDLG	Highest Monthly Average	Range of Monthly Average	Major Source	Violation
Chlorine (Distribution/Zone A)	Year 2015	ppm	4	4	1.56	0.69-1.56	Water additive used to control microbes	NO
Chloramines (Distribution/Zone B)	Apri-Nov 2015	ppm	4	4	1.13	0.73-1.13	Water additive used to control microbes	NO

West View Water Authority (PWS ID NO. PA5020043)

Volatile Organic Compounds (VOCs): No VOCs were detected during the 2015 reporting year.

Radiological Analysis: Radiological Analysis was conducted during the 2011 reporting year resulting in non-detects for all parameters, including Alpha Emitters and Beta /Photon Emitters.

Unregulated Contaminant Monitoring Rule (UCMR): Unregulated contaminants are those for which the EPA has not established drinking water standards. The purpose of unregulated contaminant monitoring is to assist EPA in determine the occurrence of unregulated contaminants in drinking water and whether future regulation is warranted. In addition to the testing we are required to perform, our water system voluntarily tests for hundreds of additional substances and microscopic organisms to make certain our water is safe and of high quality. If you are interested in a more detailed report or have any questions about The Municipal Authority of the Borough of West View and our water quality contact Ms. Brandy Braun, Chemist, at 412-931-3292.

- * Some people who drink water containing TTHMs in excess of the MCL over many years may experience problems with their liver, kidneys or central nervous systems, and may have an increased risk of getting cancer.
- ** Some people who drink water containing HAAs in excess of the MCL over many years may have an increased risk of getting cancer.

If Present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Seven Fields Water Department is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have you water tested. Information on lead in drinking water, testing methods and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>."

Unregulated Contaminant	Date Tested	Unit	Detection Limit	Average	Range	Major Sources	Violation
Strontium	Year 2015	ppb	0.3	110	110	Naturally-occurring element; used in making CRT televisions.	NO
Chromium Hexavalent	Year 2015	ppb	0.03	0.05	0.04-0.06	Naturally-occurring element; used in making steel and other alloys.	NO
Bromide	3/27/2012	ppb	10	18	18	Naturally-occurring element; used in hydraulic fracturing to extract natural gas from shale.	NO

West View Water Authority (PWS ID NO. PA5020043)

Contaminant	Date Tested	Unit	MCL	MCLG	Detected Level/Range	Major Sources	Violation
Synthetic Organic Di(2-ethylhexyl) phthalate	8/11/15	ppb	6	0	0.8	Discharge from rubber and chemical factories	NO

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
ESTE INFORME CONTIENE INFORMACION IMPORTANTE ACERCA DE SU AGUE POTABLE. HAGA QUE
ALGUIEN LO TRADUZCA PARA USTED, O HABLE CON ALGUIEN QUE LO ENTIENDA**

Monitoring requirements were not met for VOC's by Seven Fields Borough Water Department.

Seven Fields Water System violated one standard twice in the past year. Even though this was not an emergency, as our customers, you have a right to know what happened and what we did to correct the situation.

For 2015 the first quarter sampling was not within the one (1) week time frame allotted for samples per the DEP.

For the second quarter the lab invalidated the samples. Retesting was necessary. Subsequent samples that were taken all met existing regulations.
