Such notice shall be served personally or by registered mail at the last known address of the adjoining and adjacent property owner.

If the adjoining and adjacent property owners fail to comply with the requirements in Article II within the sixty-day period, the Municipality, or Authority or their agents may enter upon said property and construct and connect the sewage systems with the public sanitary sewer and disconnect the receptacle for human excrement. Upon completion of said work, the Municipality or other persons authorized by law shall immediately send an itemized bill of the cost of such construction and disconnection to the adjoining or adjacent owner, which shall be payable immediately. In the case of neglect or refusal by the adjoining or adjacent property owner to pay said bill forthwith, but not later than ten (10) days after receipt thereof, a municipal lien for said construction and disconnection shall be filed within six (6) months of the date of completion of said construction, and the lien shall have the same status as all other municipal liens.
