## Seven Fields Borough Begins GIS Mapping of Water System

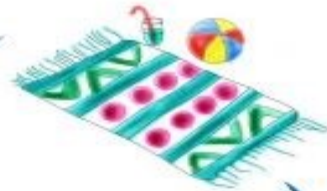

Phase I of Seven Fields Water Distribution System GIS Mapping has begun. This phase includes mapping water systems valves, fire hydrants, hydrant valves, and other related water pipes. The mapping of the underground utilities of a municipality provides up-to-date subsurface infrastructure data so that the public departments and contractors can avoid utility strikes and annoying service interruptions, budget overruns, and safety risks that come with them. The 2024 Water Fund Capital Reserve Budget earmarked \$9,500.00 for the project.

### *Benefits of GIS Mapping:*

- GIS applications and data collection platforms.
  - Infrastructure planning.
  - Asset mapping and management.
- Streamlined emergency operations.
  - Sustainability, redefined.
- Shaping the future of water management.

## Swimming Pool Manager

Let me introduce myself. My name is Ray Brannon. I have two sons and two daughters and my family has been home owners in seven fields for 10 years. I am currently a gymnastics coach at Xcel gymnastics in cranberry. I grew up swimming every day at our summer swim club Beau Clair in Westmoreland county. I swam competitively from age 8 to 18 for Franklin Regional School and our community year round team called FAST. In the last ten years I have been a continuous supporter and avid user of our community swimming pool and it's parks and various events that our borough has been able to graciously provide. I taught swim lessons at the Wexford YMCA for 5 years and brought those swim lessons sponsored by the YMCA to the seven fields pool one summer years back. I'm looking forward to a great summer and can't wait to see the new construction improvements to our pool!
